https://wearesocial.com/blog/2020/01/digital-2020-3-8-billion-people-use-social-media

The internet matters

If you are going to do legal things with the internet, you should understand how it works.

If you are going to be a lawyer, you will use the internet more than most.

The internet is littered with complex legal issues.

Building Websites

How does a website / app get built?

Do you use your own code?

Do you buy / rent / steal code from other people?

What is code exactly?

WordPress powers ~30% of the web

½ of all internet traffic is from mobile devices
